

My Favorite Therapists

Deerfield Beach, FL

The relevance and existence of children who are dependent of their parents and guardians due to their special needs is continuing to increase. Therefore, facilities must be designed and built to suit the needs of these very specific patients and their families.

My Favorite Therapists has revolutionized the various therapy needs that special-needs children require to promote healthy developments. They offer the best in Physical, Occupational, Speech, Applied Behavior Analysis (ABA) and Neurofeedback (EEG) therapy. This multidisciplinary approach allows parents to schedule several therapy services at one time, in one location and with continuity of care.

Kanthan Design Corporation, along with My Favorite Therapists, has created a multi-faceted space that allows therapy, collaboration, and profitability to occur along with an e-commerce store that provides toys and supplies to parent with special-needs children.
